ABOUT OUR MEDICAL AESTHETICIAN

DONNA ALBANESE

Donna has worked as a free-lance make-up artist and skin care consultant for high end lines including La Prairie, Cle 'de Peau, and Chanel, among others. She attended the premier cosmetology school, the Capri Institute and received her license in Aesthetics in 2000. For the last ten years, she has been working as a medical aesthetician. She has been employed by the

Neigel Center since 2002. Donna is dedicated to helping clients achieve the most youthful results possible with their skin. To put it into her own words, "I love helping people get their skin to a place they never thought they could, and just helping people look and feel their best!" Call our office to schedule an appointment for a complimentary skin analysis with Donna today.

FREQUENTLY ASKED QUESTIONS

What is Visia Skin Analysis? Visia skin analysis is a multi-dimensional view of six aspects of your skin to provide you with a unique and individualized facial rejuvenation and skin care regimen. Multi-spectral imaging is used to obtain information regarding wrinkles, spots, pores, skin tone color variations, porphyrins (bacteria in pores) and UV spots (typically caused by overexposure to the sun). This imaging captures your skin's condition both topically and subsurface. Visia skin analysis also provides a comparison of your personal skin characteristics to those of other women of your age and ethnicity.

What is Gentle Waves? Gentle Waves is the first device approved by the FDA for wrinkle reduction. Developed by NASA for wound healing in space, Gentle Waves utilizes Light Emitting Diodes (LED) to stimulate skin cells to produce more collagen, which in turn, improves the appearance of lines and wrinkles. It stimulates the cells at the level of the mitochondria. Skin becomes smoother and softer while redness and hyper pigmentation are diminished. Each session incorporates a rejuvenating enzyme mask that instantly exfoliates and firms the skin. The subsequent light treatment takes a little over a minute and is completely heat and pain free. There is no downtime, and you can return to normal activities and apply cosmetics immediately. Results are visible within four to ten weekly sessions and continue months after your last treatment. It is safe and even recommended to continue skin peels during this time as proper exfoliation allows for effective penetration of the LED light. With remarkable benefits and zero risk, Gentle Waves truly marks a revolution in anti-aging skin care technology.

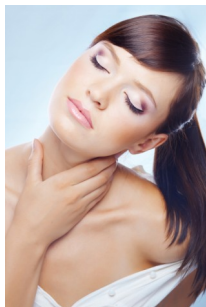

INTRODUCING SPA SERVICES

The Neigel Center for Cosmetic & Laser Surgery

**Neigel Center
Spa Services
973-325-7779**

The Neigel Center offers a buffet of highly effective spa services designed to treat a multitude of cosmetic skin issues, such as anti-aging,

sagging skin, teen acne, hyperpigmentation and sun damage, dry and irritated skin, along with a host of other skin related complications.

Our highly qualified, professional medical aestheticians will work with you to find the best and most effective solutions to treat your specific skin needs. Using state of the art technology, such as the Visia skin analysis machine, the gentle waves light, the Microdermabrasion machine – along with dazzling treatments such as Dr. Neigel’s Signature Brow, outstanding medical strength peels and masks, as well as the best products available to date, are just some of the methods we are expertly versed in. Please call to set up your appointment – and feel free to inquire about new spa services that may not yet be listed.

skin Treatments:

***Facials:**

Basic Facial– 50 minutes

Our basic facial consists of cleansing, toning, extractions and a wonderful massage, followed by a specialized mask according to your skin type.

\$100

Four Layer Facial– 60 minutes

A luxurious European anti-aging facial that vitalizes the rejuvenating properties of seaweed to help firm the skin. Each of the four layers services a unique purpose to improve the hydration, circulation and skin tone, and achieve an overall softening of lines. The result is visibly renewed skin and a lasting afterglow.

\$120

Oxygen Facial– 50 minutes

This facial delivers oxygen below the surface to thoroughly cleanse the pores and increase circulation. It’s like a breath of fresh air.

\$115

Teen Microdermabrasion Facial– 50 minutes

Light Microdermabrasion to exfoliate and prepare the skin. With steaming and deep cleansing to lift up any impurities and clean away all bacteria.

\$80

Microdermabrasion Facial– 90 minutes

Microdermabrasion 4-layer facial: Microdermabrasion to exfoliate the dead skin cells, followed by a fabulous 4-layer facial to deliver anti-oxidants, using anti-aging products to tone and firm the skin.

\$210

Glycolic Peel Facial– 60 minutes

This intensive treatment rapidly exfoliates skin cells to clarify the complexion and leave your skin with a noticeable improvement.

\$150
